

NICOLA PAOLETTI

Department of Computer Science - Stony Brook University

Engineering Dr, Stony Brook, NY 11794, USA

nclpltt@gmail.com | +1 (631) 590 - 9501 | Skype: nico.pao | www.nicolapaoletti.com

Research Experience

- 2016-present **Postdoctoral Associate**, Department of Computer Science, Stony Brook University (USA)
- Automated design of robust controllers for fully closed-loop artificial pancreas
 - Analysis of robustness and vulnerabilities of implantable defibrillators algorithms
 - Machine learning methods for model checking
- 2014-2016 **Research Assistant**, Department of Computer Science, University of Oxford (UK)
- Quantitative verification and synthesis for cardiac pacemakers
 - Parameter synthesis methods for stochastic systems
- Oct-Dec 2013 **Research Internship**, Microsoft Research, Cambridge (UK)
- Synthesis of large-scale gene networks using Satisfiability Modulo Theories

Education

- Mar 24, 2014 **Ph.D. in Information Sciences and Complex Systems**, University of Camerino (IT)
Thesis: "Formal Computational Modelling of Bone Physiology and Disease Processes"
- Formal modeling and analysis of bone remodeling and bone metabolic diseases
 - Bioaccumulation and bioremediation in ecological networks
 - Formal modeling and verification of self-adaptive systems
- Oct 14, 2010 **Laurea Specialistica in Computer Science**. University of Camerino (IT)
Marks: 110/110 cum laude
- Jul 17, 2008 **Laurea Triennale in Informatica**. University of Camerino (IT)
Marks: 110/110 cum laude

Awards

- 2016 **MCED Award, 2nd prize**, from Ecological Society of Germany, Austria and Switzerland for innovative contributions to ecological modelling.
Awarded to co-author M. Taffi, see http://www.mced-ecology.org/?page_id=1121
- 2015 **Valuable Artefacts Prize** from Department of Computer Science, University of Oxford
"HeartVerify: model-based quantitative verification of implantable cardiac pacemakers"
(www.cs.ox.ac.uk/news/1052-full.html)
- 2015 **Best Young Researcher Paper Award** from International Society for Ecological Modelling
Awarded to co-author M. Taffi
- 2014 **Commentary** in "Frontiers in Genetics" journal (see doi:10.3389/fgene.2015.00020)

- 2014 **Best Paper Award** at IEEE ICHI 2014 Conference
- 2013 **Best Young Researcher Award** from School of Advanced Studies, University of Camerino
- 2006,7,8,9 (4x) **Annual Merit Scholarships** from University of Camerino

In addition I was (co-)recipient of **five best poster awards** between 2011 and 2017 at Oxford Computer Science Conference 2017, 2nd and 3rd Scientific Day of Camerino University, NETTAB 2012 Workshop, and 2nd European Future Technologies Conference and Exhibition (EU FET flagship conference).

Teaching

Graduate courses

- Feb, Sep 2016 (2x) **Teaching assistant** in Object-Oriented Design
Software Engineering Programme, Department of Computer Science, University of Oxford
- 2015 **Class Tutor** in Object-Oriented Programming
Department of Computer Science, University of Oxford
- 2011 **Teaching Assistant** in Distributed Calculus and Coordination
Department of Computer Science, University of Camerino

Undergraduate courses

- 2013 **Teaching Assistant** in Programming
Department of Computer Science, University of Camerino
- 2011,2,3 (3x) **Teaching Assistant** in Computer Architecture
Department of Computer Science, University of Camerino
- 2012,3 (2x) **Contract Lecturer** in Computer Science
Department of Mathematics, University of Camerino

Student Supervision

- 2017-present **Co-supervised two high-school research students** on projects about security of defibrillator algorithms
Co-supervision with Prof Scott A Smolka, Stony Brook University
- 2014-2015 **Co-supervised three 3-month internships** on modeling and analysis of cardiac pacemakers
Co-supervision with Prof Marta Z Kwiatkowska, University of Oxford
- 2009 **Co-supervised BSc thesis** on a web-based operating system for bioinformatics
Co-supervision with Prof Emanuela Merelli, University of Camerino

Invited Talks and Visits

- Sep 2017 **Invited talk at the 1st Meeting of Italian American Scientist of Long Island (IASLI), Stony Brook University (USA)**
Talk: "Designing a robust artificial pancreas using patient data: a computational study"
- Jun 2017 **Invited talk at I(CO)₂S group, Newcastle University (UK)**
Talk: "Syntax-guided optimal synthesis for chemical reaction networks"
- Jun 2017 **Invited talk at MathWorks Research Summit, Newton MA (USA)**
Talk: "Model-Based Quantitative Verification of Implantable Cardiac Pacemakers"
- Dec 2015 **Visit at the Faculty of Informatics, Vienna University of Technology (AT)**
Talk: "Quantitative verification and synthesis for pacemaker optimisation and personalisation"
- Jun 2015 **Participation to MathWorks Research Summit (invite-only), Newton MA (USA)**
- Mar 2015 **METABLE 2015 Training School, University of Cambridge (UK)**
Talk: "Formal approaches to the synthesis of biological networks"
- Jan 2015 **Visit at the Faculty of Informatics, Masaryk University (CZ)**
Talk: "Synthesising robust and optimal parameters for cardiac pacemakers"
- Jul 2014 **Molecular Walkers Workshop, University of Oxford (UK)**
Talk: "Analyzing and Synthesizing Genomic Logic Functions"
- Aug-Sep 2013 **Visiting period at the School of Computer Science, Reykjavik University (IS)**
- Jun 2013 **Biological Computation Group, Microsoft Research, Cambridge (UK)**
Talk: "Computational modelling of bone remodelling"
- Mar 2013 **TOPDRIM EU Project Meeting, CIRM, Marseille (FR)**
Talk: "S[B] systems: a model for multi-level self-adaptive complex systems"
- Aug-Oct 2011 **Visiting period funded by HPC-EUROPA2 fellowship at the Edinburgh Parallel Computing Center, University of Edinburgh and Computer Laboratory, University of Cambridge (UK)**
- Feb-Mar 2011 **Visiting period at the School of Computer Science, Reykjavik University (IS)**
Talk: "Formal aspects in spatial and hierarchical modelling: a survey"

In addition, I delivered several talks at international conferences and workshops, and a number of seminars for the Verification Seminars series, organised at the Computer Science department of Oxford University.

Research Funding

- 2012 Contributed to the writing of the proposal for the **FP7 ICT FET Proactive TOPDRIM** project
- 2011 **HPC-EUROPA2 fellowship** on parallel agent-based simulation for bone remodeling
Approximate value: £1800. Duration: 3 months.

I also contributed to writing three projects proposals (not granted): EPSRC IAA, EC FP7 FET and MIUR FIRB.

Collaborations

- since 2017 **Prof Ezio Bartocci** (Vienna University of Technology), **Prof Paolo Zuliani** and **Dr Fedor Shmarov** (Newcastle University, UK)
SMT-based synthesis of robust controllers for the artificial pancreas. Co-authored 1 publication.
- since 2016 **Prof Luca Cardelli** (Microsoft Research Cambridge, UK), **Prof Martin Fränzle** (Carl von Ossietzky Universität Oldenburg, DE), **Dr Luca Laurenti** and **Dr Max Whitby** (University of Oxford)
Methods for the automated, syntax-guided synthesis of stochastic chemical reaction networks. Co-authored 1 publication.
- since 2016 **Prof Radu Calinescu** and **Dr Simos Gerasimou** (University of York)
Methods for design automation and multi-objective optimization of stochastic systems. Co-authored 2 publications.
- since 2015 **Prof Ivan Martinovic** and **Dr Simon Eberz** (University of Oxford)
Cyber-security of electrocardiogram-based biometrics. Co-authored 1 publication.
- 2015-2016 **Dr Tim Betts** (John Radcliffe Hospital, Oxford)
Clinical validation of the heart and pacemaker models developed at University of Oxford
- 2013-2016 **Dr Hillel Kugler** (Bar-Ilan University, IL), **Dr Youssef Hamadi** (École Polytechnique, FR), **Dr Christoph Wintersteiger** and **Dr Boyan Yordanov** (Microsoft Research Cambridge, UK)
Collaboration aimed to study the synthesis of large-scale Boolean gene regulatory networks, with focus on the sea urchin embryonic development. Co-authored 1 publication.
- 2012-2015 **Prof Pietro Liò** (University of Cambridge), **Dr Mauro Marini** (CNR-ISMAR, IT), **Dr Marianna Taffi** and **Dr Sandra Pucciarelli** (University of Camerino)
Computational models of bioaccumulation and bioremediation in the Adriatic aquatic food network. Co-authored 2 publications.
- 2011-2014 **Prof Pietro Liò** (University of Cambridge), **Prof Marco Viceconti** (Sheffield University) and **Prof Ezio Bartocci** (Vienna University of Technology)
Collaborative work examining agent-based, stochastic and hybrid models of bone remodeling. Co-authored 7 publications.

Outreach and Public Engagement

- Jan - Apr 2017 **Attended two-day workshop and 15-hour course on science communication for the public and media**, Alda Center for Communicating Science, Stony Brook University
- Learned communication and story-telling techniques, and how to target different audiences
 - Prepared and gave a mock interview on my research by reporter from PBS's Scientific American Frontiers
- 2014 **Graduate Open Day**, Department of Computer Science, University of Oxford
- Organized a demonstration of my research work
 - Advised potential students on Ph.D. opportunities
- 2012 **Curiosando nella scienza: pillole di ricerca**, University of Camerino
- Seminar series to promote the work of young scientists.
- Delivered a seminar on Computational Systems Biology
 - Helped in the organization and promulgation of the event

Professional Activities

Conference Organisation

- Program co-chair of **VEMDP 2018**, the 3rd International Workshop on Verification of Engineered Molecular Devices and Programs
- Program co-chair of **CMSB 2016**, the 14th International Conference on Computational Methods in Systems Biology

Member of Programme Committee

- **CMSB 2018, 2017, 2016** (Int. Conf. on Computational Methods in Systems Biology)
- **MedicalCPS 2016, 2018** (Workshop on Medical Cyber Physical Systems)
- Repeatability evaluation committee of **HSCC 2017** (ACM Int. Conf. on Hybrid Systems: Computation and Control)
- **DataMod 2017, 2016** (Int. Symposium "From Data to Models and Back")
- **SASB 2017, 2016** (Int. Workshop on Static Analysis and Systems Biology)
- **MASAMB 2016** (Annual Workshop on Mathematical and Statistical Aspects of Molecular Biology)
- Artifact evaluation committee of **CAV 2016** (Int. Conf. on Computer Aided Verification)
- **HSB 2016, 2015** (Int. Workshop on Hybrid Systems and Biology)
- **QAPL 2016** (Int. Workshop on Quantitative Aspects of Programming Languages)

Peer-Review Experience

Below are the venues for which I have been, or currently am, reviewer or sub-reviewer (conferences and workshops where I have been PC member are not listed).

- Journals
- **Theoretical Computer Science** (Elsevier)
 - **Journal of Intelligent Information Systems** (Springer)
 - **ACM Transactions on Cyber-Physical Systems**
 - **Formal Methods in System Design** (Springer)
 - **Information and Computation** (Elsevier)
 - **Science of Computer Programming** (Elsevier)
 - **ACM Transactions on Modeling and Computer Simulation**
 - **Non-linear Analysis: Hybrid Systems** (Elsevier)
 - **PLoS One**
 - **PloS Computational Biology**
 - **BMC Bioinformatics**
 - **Natural Computing** (Elsevier)
 - **ACM Transactions on Software Engineering**

- Conferences
- **SPIN 2017** (Int. SPIN Symposium on Model Checking of Software)
 - **TACAS 2017** (Int. Conf. on Tools and Algorithms for the Construction and Analysis of Systems)
 - **HSCC 2018, 2017, 2016, 2015** (Int. Conf. on Hybrid Systems: Computation and Control)
 - **FASE 2016** (Int. Conf. on Fundamental Approaches to Software Engineering)
 - **CMSB 2015** (Int. Conf. on Computational Methods in Systems Biology)
 - **DNA21** (Int. Conf. on DNA Computing and Molecular Programming)
 - **CAV 2015, 2014** (Int. Conf. on Computer Aided Verification)
 - **RV 2014** (Int. Conf. on Runtime Verification)
 - **ICTCS 2012** (Italian Conf. on Theoretical Computer Science)

- Workshops
- **MedicalCPS 2014** (Workshop on Medical Cyber Physical Systems)
 - **HSB 2012** (Int. Workshop on Hybrid Systems and Biology)
 - **CS2BIO 2012** (Int. Workshop on Interactions between Computer Science and Biology)

Membership to Professional Associations

- **Postdoc Advisory committee** of Stony Brook University
- **ACM** - Association for Computing Machinery
- **EATCS** - European Association for Theoretical Computer Science
- **ACiE** - Association for Computability in Europe
- **IEEE TCSIM** - Technical Committee on Simulation
- **IEEE EMBC** - Engineering in Medicine and Biology Society
- **ISEM** - International Society for Ecological Modelling

Additional Work Experience

- since 2010 **Member of Next Generation Bioinformatics (NGB)**, University of Camerino spin-off
- 2008-2010 **Research Intern**, University of Camerino
Development of a web-based Workflow Management System for bioinformatics services.
- Jan-Apr 2008 **Research Intern**, Dipartimento di Scienze Aziendali, University of Bologna (IT)
Development of software for the harmonisation and matching of company names and data mining for trademarks and patents.
- Feb - Dec 2008 **Tutor for disabled students**, University of Camerino

Publications (contributions I personally presented at conferences and workshops are marked with •)

Edited Books and Volumes
